At APAC 17, people on the spectrum, family members, practitioners, researchers and policy makers will together explore how people on the spectrum of all ages, supported by their families and communities, can be the people they want to be.

A number of world leaders in the field have already committed to speaking at APAC 17 including Peter Vermeulen from Belgium who will give the opening address and Dr Barry Prizant from the USA, author of Uniquely Human, who will give the closing address.
